Pre-exchange

INSPECTION CHECKLIST

This is your last chance to check that everything in the property works and is in a condition that you will accept it.

Keep in mind the age and value of the property. The condition of the property at exchange is the condition that you can expect it at settlement.

Testing time

Pro tips

- Use a phone charger or night light to test electrical points!
- Sometimes exhaust fans and rangehoods are quiet. Take a tissue with you and hold it against the exhaust fan when it's turned on. If it sticks, it works!
- Look for anything that you think might be expensive to fix, if you discovered that it was broken.

WHY DO WE MAKE ADJUSTMENTS?

Rates, land tax, water charges and body corporate levies are land charges that remain with the property being transferred. Adjustments are made at settlement to ensure that the Buyer and Seller are both paying their share of these charges.

This means that the parties are each fairly paying the land charges that apply to the time that they owned the property, regardless of when the account is changed or the transfer is registered on the title.

In the same way, rent that a property earns for its owner is adjusted so that the Buyer and the Seller each earn their share of the rent when the property passes.

Adjustments refers to the 'splitting' of the costs of certain land charges on a property, such as rates, land tax, water charges and body corporate levies. The process ensures that neither the Buyer nor Seller are paying for these charges when they did not own the property.

How do we know what the charges are?

Prior to settlement, the Buyer's representative will obtain various searches for land charges including:

- *Certificate of Rates, Land Tax & Other Charges*, from the ACT Revenue Office or the relevant council;
- *Request for Charges* from Icon Water or local water provider;
- *Special Water Meter Reading* from Icon Water or local water provider; and
- *an update on payment of any body corporate levies* (if the property is a unit in a units plan).

These are provided to the Seller's representative to allow them to prepare a settlement statement.

How does it work?

The cost for each kind of charge is calculated for the period in which settlement will take place, and that cost shared proportionally between the Buyer and Seller so that:

- if the Seller has paid land charges for a time when the Buyer will own the property, then the Buyer will reimburse the Seller their share, by adding it to the purchase price; and
- if the Buyer needs to pay land charges for a time when the Seller owned the property, then the Seller will pay their proportional amount by taking it off the purchase price.

Usually, the parties agree to work on the basis that all outstanding bills are paid in full on settlement. This means that most adjustments are by the Buyer in favour of the Seller, and any payments that are outstanding are paid by the Seller on settlement by drawing a cheque to the council or utility provider.

Land tax

Land tax is usually not levied on owner occupiers and so land tax is generally not be adjusted when a Buyer intends to live in the property. However, in the ACT, if the Seller is liable for land tax a Buyer be able to request the Seller's assistance to have the ACT Revenue Office recognise that the Buyer is not liable for land tax, and reduce its costs. The rules are complex and may be changed by the Contract. Ask us if you're not sure.

What about gas, electricity and internet?

Gas, electricity, internet and other services are 'personal' utilities, and new owners will need to arrange connection for these services individually. Adjustments are not made on settlement.

Does anything else get adjusted?

If the property is tenanted, rent will be adjusted proportionally much in the same way as land charges are adjusted, so that the Buyer and Seller earn income on the property during the time they owned it.

The Seller will reimburse the Buyer for the cost of discharging any mortgage on title, which needs to be removed for the Buyer to register their name on the title.

An adjustment will also be made by the Buyer to the Seller for the Section 119 Certificate, and Building, Pest & Compliance Inspection Report, if one or both of these documents were required in the Contract.
