

TOOLKIT: BUYING A PROPERTY OFF THE PLAN

Property is for everyone.

Your guide to buying a property off the plan

The Morris Legal Group Team are property tratics and have lived the journey of buying our next home or investment, so we know that it can be overwhelming.

This Toolkit is your winner's guide to buying property off the plan and will be with you throughout the conveyancing process.

Prepare to succeed

When the market is competitive, it pays to take steps to prepare for your purchase whether or not you have found the perfect property.

- Check in with your bank or broker to ensure you will have the funds available for settlement when construction is complete
- Calculate transfer duty on your property and factor it into your budget:
 - > [ACT Stamp Duty Calculator](#)
 - > [NSW Stamp Duty Calculator](#)
- Check out what stamp duty concessions or boosts you may be eligible to receive, including first home owner support. Start here:
 - > [ACT Stamp Duty Details](#)
 - > [NSW Conveyance Duty Details](#)

Once you have found the perfect place:

- [Get in touch with us](#) so we can review the Contract, or get an [instant quote](#)

- Think about your other life admin, including:
 - > Ensuring your finances are sorted and you can be approved once the property is built (you cannot get unconditional finance for off-the-plan property)
 - > Getting your will sorted, or having your existing will reviewed (see page 8)
 - > Whether you need a new or updated Binding Financial Agreement, especially if you're moving in with your partner for the first time (see page 8)

- Get your Pinterest or old-school scrap book and glue stick fired up and start seeing yourself in your new place!

Settle In

Settle in for the long haul... buying a property off-the-plan property may require you to wait, but can be hugely rewarding! You'll need to be prepared to engage with the process:

- Plan your to-do list for each step of the conveyancing process (see page 3)
- Keep your conditional finance approval current but be sure to get ready to finalise and sign up once construction is complete!

- You will undertake a pre-settlement inspection, when it will be important to note any defects in the property before completion (see page 4)
- You will need to keep track of any other defects that come up after completion and let the developer know in time (see page 6)

Welcome to your property adventure!

If you need help at any point throughout the process, just reach out to us. We're thrilled to be on the journey with you and are only too happy to help.

DEFECTS LIST

Your off-the-plan purchase will include a Defects Liability Period which will usually be a 90-day period.

You will have the opportunity to submit one list of Defects that arise in the property during this period for rectification by the developer.

The Defects Liability Period will commence on the earlier of:

- the date of Completion of your property; and
- the date you were permitted to occupy the property.

What are Defects?

A Defect is a material defect in the residential dwelling constructed by the builder due to faulty workmanship or materials.

Common Defects include, but are not limited to:

- Water leaks
- Faulty garage doors
- Inadequate drainage

Defects do not include:

- Blown light bulbs
- Scratches and chips to surfaces
- General wear and tear of the property

Emergency Defects

It is usual practice that emergency defects are rectified immediately. If any arise, the defects will not form part of your one defects list to be submitted during the Defects Liability Period.

What are Emergency Defects?

Emergency Defects are those that relate to:

- watertightness/roofing;
- electricity;
- gas;
- plumbing (including sewerage);
- the structure of the Works; or
- matters that fundamentally affect your proper use and enjoyment of the property.

Here is a helpful list for you to keep track of any defects. We recommend that you put this list up on the fridge and record any Defects you discover during your Defects Liability Period, which is usually 90 days from completion.

WHY DO WE MAKE ADJUSTMENTS?

Rates, land tax, water charges and body corporate levies are land charges that remain with the property being transferred. Adjustments are made at settlement to ensure that the Buyer and Seller are both paying their share of these charges.

This means that the parties are each fairly paying the land charges that apply to the time that they owned the property, regardless of when the account is changed or the transfer is registered on the title.

In the same way, rent that a property earns for its owner is adjusted so that the Buyer and the Seller each earn their share of the rent when the property passes.

Adjustments refers to the 'splitting' of the costs of certain land charges on a property, such as rates, land tax, water charges and body corporate levies. The process ensures that neither the Buyer nor Seller are paying for these charges when they did not own the property.

How do we know what the charges are?

Prior to settlement, the Buyer's representative will obtain various searches for land charges including:

- *Certificate of Rates, Land Tax & Other Charges*, from the ACT Revenue Office or the relevant council;
- *Request for Charges* from Icon Water or local water provider;
- *Special Water Meter Reading* from Icon Water or local water provider; and
- *an update on payment of any body corporate levies* (if the property is a unit in a units plan).

These are provided to the Seller's representative to allow them to prepare a settlement statement.

How does it work?

The cost for each kind of charge is calculated for the period in which settlement will take place, and that cost shared proportionally between the Buyer and Seller so that:

- if the Seller has paid land charges for a time when the Buyer will own the property, then the Buyer will reimburse the Seller their share, by adding it to the purchase price; and
- if the Buyer needs to pay land charges for a time when the Seller owned the property, then the Seller will pay their proportional amount by taking it off the purchase price.

Usually, the parties agree to work on the basis that all outstanding bills are paid in full on settlement. This means that most adjustments are by the Buyer in favour of the Seller, and any payments that are outstanding are paid by the Seller on settlement by drawing a cheque to the council or utility provider.

Land tax

Land tax is usually not levied on owner occupiers and so land tax is generally not be adjusted when a Buyer intends to live in the property. However, in the ACT, if the Seller is liable for land tax a Buyer be able to request the Seller's assistance to have the ACT Revenue Office recognise that the Buyer is not liable for land tax, and reduce its costs. The rules are complex and may be changed by the Contract. Ask us if you're not sure.

What about gas, electricity and internet?

Gas, electricity, internet and other services are 'personal' utilities, and new owners will need to arrange connection for these services individually. Adjustments are not made on settlement.

Does anything else get adjusted?

If the property is tenanted, rent will be adjusted proportionally much in the same way as land charges are adjusted, so that the Buyer and Seller earn income on the property during the time they owned it.

The Seller will reimburse the Buyer for the cost of discharging any mortgage on title, which needs to be removed for the Buyer to register their name on the title.

An adjustment will also be made by the Buyer to the Seller for the Section 119 Certificate, and Building, Pest & Compliance Inspection Report, if one or both of these documents were required in the Contract.
